

CDS Hooks - Exercises

Track lead: Kevin Shekleton

During the hands-on session of the CDS Hooks tutorial, you will learn how to build, integrate, and test your first CDS Service in the CDS Hooks Sandbox.

After completing this tutorial, you will:

- Understand how EHRs and CDS Services communicate with each other
- Create your first CDS Service and integrate it into the CDS Hooks Sandbox
- Understand how FHIR and SMART work within CDS Hooks

The tutorial and code for this exercise can be found at:

<https://github.com/cerner/cds-services-tutorial>

<https://github.com/cerner/cds-services-tutorial/wiki>

Have fun, and remember to ask for help if you get stuck!
