

## Quiz – Firely’s US office!

### FHIR Questionnaire and QuestionnaireResponse

This year, Firely is here in the US to stay! We live and breathe FHIR. What better place to do that than in Boston, US? To celebrate that we extended our home base in Amsterdam across the ocean, we’re giving away cool prizes that have a strong connection to our favorite cities - Amsterdam and Boston! But since the prizes are limited, we made a small quiz to reward the best and funniest answers. 😊

Now... we are at FHIR DevDays. You didn’t think this would be just an ordinary quiz, did you? Time to get your hands dirty with FHIR! The quiz’s questions are defined in a Questionnaire Resource and you can respond by sending your answers in a QuestionnaireResponse Resource to a Vonk FHIR server that only allows creates (so you cannot see the answers of others). On Wednesday morning, we will retrieve all the answers and announce the winners. The winners may collect their prize at the Firely booth.

Don’t worry, this quiz is suitable for FHIR newbies. DevDays consists of numerous tutorials and remember that you are surrounded by tons of people with FHIR knowledge who want to help you out. Just ask ;)

#### Requirements

- Knowledge of the FHIR RESTful API – specifically how to create / POST a resource
- Some knowledge of the FHIR resource Questionnaire and QuestionnaireResponse
- Your own FHIR client or HTTP tool like Postman / Fiddler
- Text editor
- Creativity to answer the questions!

#### All the details!

1. You will find the questions in a Questionnaire resource, named [Firely’s DevDays Quiz](#), hosted in the Simplifier project [DevDays Redmond 2019 STU3](#).
2. Put your answers in a FHIR STU3 QuestionnaireResponse Resource, that conforms to the Questionnaire. A template QuestionnaireResponse, named [DevDays Quiz answer template](#), lives in the same Simplifier project. Oh, and do not forget to include your full name!
3. POST your QuestionnaireResponse to our ‘DevDays Quiz Vonk’ FHIR server. The server base address is <https://quiz.fire.ly>
4. Check the announcements Wednesday afternoon and possibly collect your prize!

Have fun and remember to ask for help if you get stuck!
