

# Argonaut International

Ardon Toonstra, Firely

November 20-22, Amsterdam | @HL7 @FirelyTeam | #fhirdevdays | [www.devdays.com](http://www.devdays.com)

# Big (inter)national FHIR Initiatives

- Argonaut
  - Da Vinci Project
  - International Patient Summary (IPS)
    - Trillium II
  - NHS Digital
  - Medical Informatics initiative Germany
  - The Finnish PHR
  - MedMij
  - ....
- Argonaut Australia
  - Canada Core profiles
  - International Patient Access (IPA)
  - ....

# Internationally interoperable

## How interoperable are those programs at an international level?

- How hard will it be for a tech company to start operations in another country?
- Big tech companies may cause Argonaut to exceed the US realm.  
Could other countries gain influence on the development / governance?
- Solution?

## Discussion could be categorized in:

- Information model (resources / profiles)
- Exchange patterns
- Access (authentication / authorization)
- Infrastructure
